Mitigating climate change – promoting public health

2015. **17/C.19.** **It concludes that achieving a decarbonised global economy and securing the public health benefits it offers is no longer primarily a technical or economic question – it is now a political one.**

Bold political commitment in the Paris agreement should rapidly accelerate the deployment of new technologies, and mobilisation of additional climate finance.

2015. **17/C.19.** **1.6.**

4. **17/C.19.** **2015.**

CHINA'S ENVIRONMENTAL TRADING SYSTEMS PILOT

2015 LANCET COMMISSION ON HEALTH AND CLIMATE CHANGE

The Commission is an international, independent collaboration of academic experts, formed to map out justification for policy responses to climate change. It exists as a collaboration between European and Chinese climate scientists, geographers, social and environmental scientists, biodiversity experts, engineers, energy policy experts, economists, political scientists and public policy experts, and health professionals – all seeking a response to climate change which is designed to protect and promote human health. Administrative, communications, and design personnel also support this Commission.
